

European Day of Languages

In September, the whole school took part in the European Day of Languages. Each Key Stage concentrated on a different European country, its language and its culture, including Spain, Germany, France and Italy. The children and staff have given their thoughts on the day and how they would like to develop this learning in the future.

This was also the starting point for a link with a new French partner school, Ecole de Villiers de Morhier in Rambouillet. Pupils from both schools introduced themselves and their respective schools in both English and French. This link has been actively maintained and developed all year, exchanging information about each of our schools, classrooms and curriculum.
